

**Smart Building - G4**  
*Smart Technology powered by Hybrid Solar Energy*

*Our Smart Building that allows productivity with efficiency in mind.*

## SUSTAINABLE PRACTICES

*Smart Building enables precise matching of intelligent technologies and regulations. It ensures savings for practical application, its own light-intensity control switches and its own control minimize electric consumption. Its air-conditioning system tracks temperature and adjusts centralization with precision in every room, specially in cafeterias and rest rooms.*

# SMART CONVINIENCE

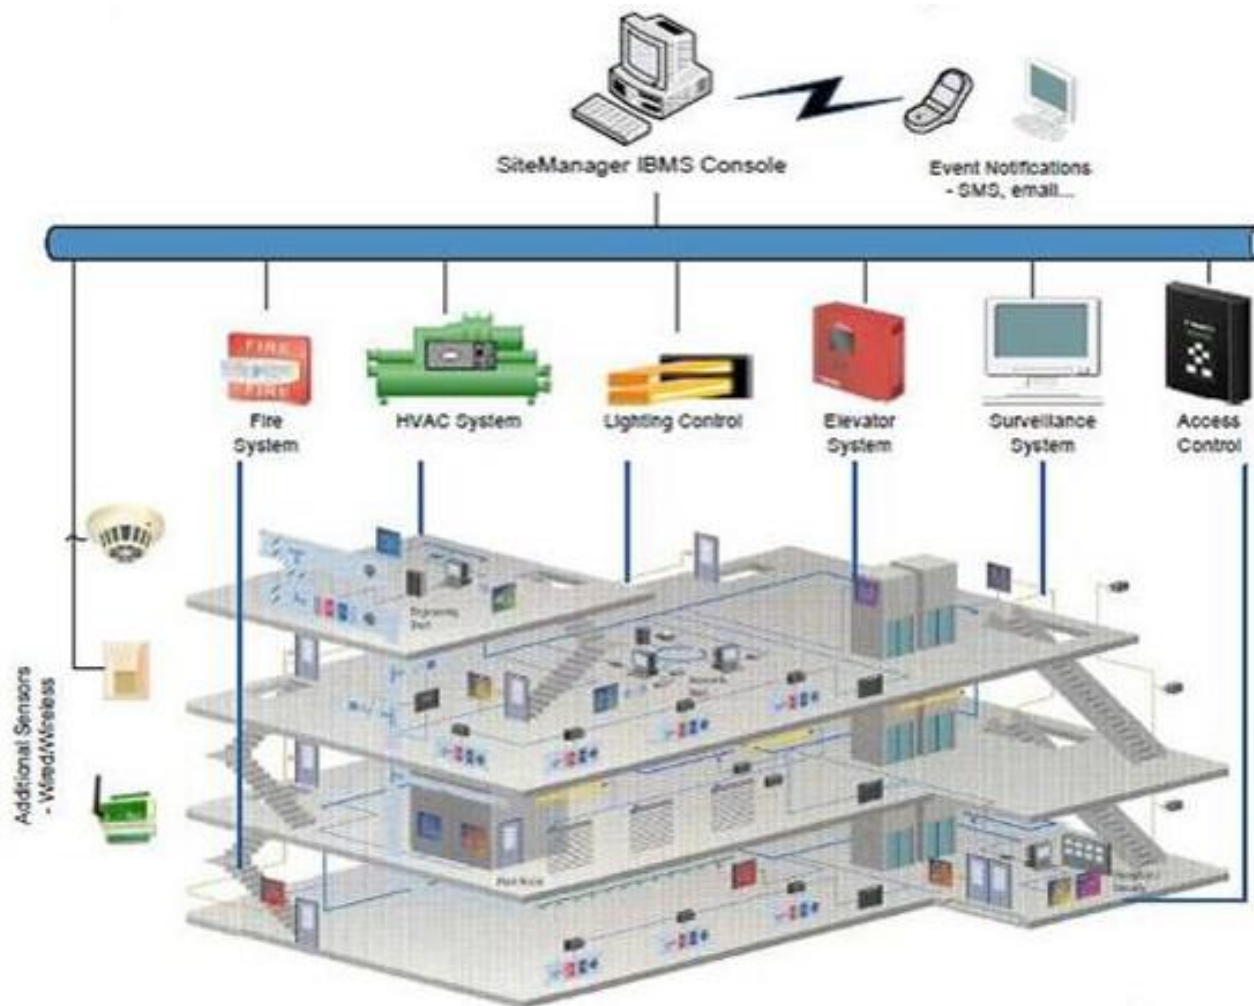

- With free wi fi access to all over the building, on-demand ordering and coffee shop reservation and other building facility including the use of gym are integrated in one application. Help and on-demand request are within access to residents' smart phones.
- **SMART SECURITY.** Remote cameras are installed and are equipped with advanced and synchronize system that does not only monitor safety features of the building but monitor every entry and signals every exit for unwarranted guests.
- **BUILDING's OWN SECURED PAYMENT GATEWAY** means every residents have Smart Pass ID which can be used in commercial facilities of the building. This smart ID can also be used to purchase outside the building because its covered by Bancnet.
- The Smart building sells its own generated power to residence to support its own maintenance.
- It even has it own **SMART PARKING** so you can Reserve and Book space before you arrive.

Smart Building has Integrated System that provides single platform for efficient operations and control.

*Integrated System for efficient operations and control.*

# Smart Market

*SIMPLE. Operated with INTELLIGENT MANAGEMENT SYSTEM*

RPCConnect presents its **G4 (Generation Four) Smart Building**. It is Green a Technology with flexible Cloud platform for anytime anywhere applications. It is designed for energy efficiency and cost-reduction technology that is integrated to self-sustainability. The Building requires less personnel to hire and helps earn money for its own operation.
